

• **Suzuki Grand Vitara 2005->**

Compatible with double DIN devices

Double DIN Set contents

Facia Plate

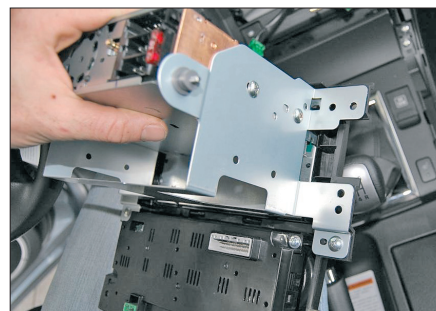

## Installation Manual Double DIN Kit 281294-06

1. Remove the side panels at the left and right side of the dashboard

3. Remove the OEM head unit (which is still mounted to the metal cage)

4. Remove the metal frame from the OEM head unit

Mount the metal frame to the Pioneer Navigation

2. Remove the four screws beside the OEM head unit.

5. Mount the new facia plate to the Pioneer Navigation. Connect all required circuit points and place the facia plate (with the Pioneer Navigation) on the dashboard

Fix it with the four original screws

Reinstall everything in reverse order

*All installation work must be performed by a qualified professional installer only.  
The manufacturer / dealer is not liable for any kind of incidental or indirect damages.*
