

Slimkey 1 or 2 has the same pinout of Unican.

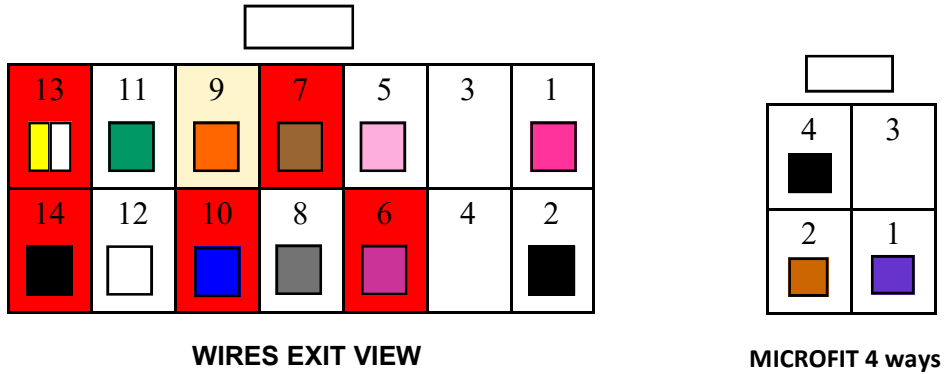

Consequently it's possible to use P&P cables of Unican with SLIMKEY (1 or 2)

Below wires on the positions RED highlighted can be removed.

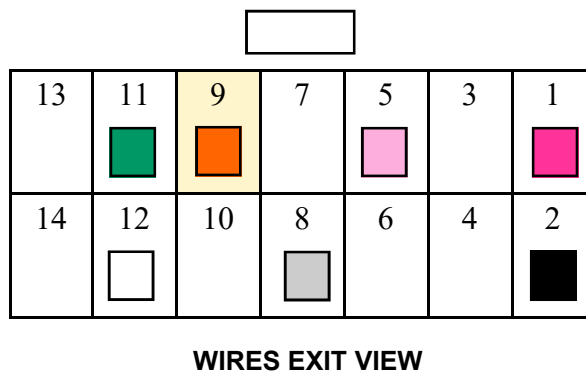

Microfit 4 ways is the connection of the radio adapter, also this can be removed.

Position 9 is the second output of Slimkey (1 or 2) this wires if not used as Lights output must be removed.

### UNICAN WIRES PIN OUT

### SLIMKEY 1 / 2 WIRES PINOUT

To remove the wires it must to use a little screwdriver and list the little plastic that ensure the wires to the connector.
