DISCLAIMER

The information provided in this document is subject to change without notice due to manufacturer changes and/or improvements to the product/s. This instruction manual is based on documented data and research. The manufacturer of this product cannot be held responsible for any changes made to the vehicle by the manufacturer or damages that may occur through the installation of this product in accordance with the steps outlined herein.

Features

- Compatible with over 100 different vehicle applications
- Works with vehicles on CAN-Bus platforms
- Includes easy to use dpiswitches for specific vehicle installation
- Supports ACC, Illumination, Speed Pulse, Park Brake & Reverse Gear (where vehicle data allows)
- Maintains the original features of the vehicle such as date, time and temperature display
- Perfect for the installation of an aftermarket head unit

Wire Colours

Speed Pulse	Pink / Rosa / Rosado / Rose / Rosa
Reverse	Purple / Lila / Púrpura / Violet / Viola
Park Brake	Green / Grün / Verde / Vert / Verde
Illumination	Orange / Orange / Naranja / Orange / Arancia
Ignition 12V	Red / Rot / Rojo / Rouge / Rosso
CAN High	Blue / Blau / Azul / Bleu / Blu
CAN Low	White/ Weiß / Blanco / Blanc / Bianca
12V Permanent	Yellow / Gelb / Amarillo / Jaune / Giallo
Ground	Black / Schwarz / Negro / Noir / Nero
Ground (Analogue)	Black / Schwarz / Negro / Noir / Nero

Dipswitch Settings

Set the dipswitches 1-7 according to the car specific settings overleaf.

Set dipswitch 8 to ON when fitting the ADDCAN2 with a Pioneer head unit.

Ensure dipswitch 8 is set to OFF when fitting with a Sony head unit.

Prior to Installation

Read the manual prior to installation. Technical knowledge is necessary for installation. The place of installation must be free of moisture and away from heat sources. Please ensure that the correct tools are using during the installation to avoid damage to the vehicle or product. Connects2 can not be held responsible for the installation of this product.

Installation

Before installing the interface, the factory stereo must be removed and disconnected. To do this, please consult the vehicle owner's manual/handbook or contact a fitting professional.

Step 1. Set the correct dipswitch settings on the ADDCAN2 interface according to the vehicle it is being fitted into. [See 'Dipswitch Settings'].

Step 2. Install into vehicle using interface wiring [see 'Wire Colours'] in correlation to the car specific wiring information.

Please note: car manufacturers can change wiring specifications without notice. Ensure that the correct wires are located before commencing installation.
